

LongLife Latex™ Seals

When latex seals are specified, OS SYSTEMS only uses **LongLife Latex™ Seals** in the production and the repair of OS SYSTEMS' products. **LongLife Latex™ Seals** can also be used in the repair and replacement of latex seals on other companies' drysuits. All of our seals come with a 60 day no fault warranty and are best installed using our own PB-300 glue.

Please consult the SEAL SIZING CHARTS below for the appropriate **LongLife Latex™ Seals** for your drysuit or Travel Wader™.

LongLife Latex™ Neck Seals are a "bellows" design with a conical, ringed neck. The rings provide additional water tight integrity by serving as miniature o-rings against the skin. These rings are also guide lines for trimming the neck seal for an individual comfort fit. Trim more rings from the tapered neck and the opening is enlarged. The bellows portion allows the user more freedom of movement than a traditional tapered seal. The thickness has been worked out to be thick enough to last and thin enough to give a comfortable stretch. Fit 8" diameter drysuit neck opening.

DLS-1 (NECK)	SIZE	FITS NECK SIZE (Circ.)
